ABOUT

I am a hardworking and ambitious individual with a great passion for the IT industry. I am a graduate with Bachelor's degree in Information Technology.

I have a good amount of skills in Photoshop, doing designs for different people and organizations as a part-time job. I also have programming knowledge I learned from my work and have experience working in different languages such as HTML, CSS, c# .Net and JS and SQL programming. Apart from my technical skills, I am a team player that enables me to work well with people.

I am seeking an opportunity in the industry in which I can put into practice my knowledge and experience, ultimately benefiting the operation of the organization that I work for.
